Features and Benefits

Small, space-saving design means the NOVA™ Comet II Midi is a great choice for a multitude of projects. The NOVA™ Comet II Midi is at-home as the primary or secondary lathe in a multi-functional workshop. In addition, it's great for those who travel a lot for their hobby or who teach/demonstrate frequently.

LARGE RANGE OF ACCESSORIES

With the unique world first patented NOVA Versaturn Range, exclusive to the Comet II Midi Lathe.

3-STEP PULLEY SYSTEM

Offers different speed ranges to provide maximum flexibility. The middle step usually provides enough range for most wood turning applications. However, the additional two steps provide more torque for the more demanding applications.

LARGE CAPACITIES

Up to 12" swing and 16.5" between centers (more with optional bed extension accessory).

STRONG 2MT SPINDLES

QUICK ACTION CAM CONTROLS

Precisely adjust to your requirements, fast.

3/4HP ELECTRONIC VARIABLE SPEED MOTOR

Gives dial-in power when you need it.

INDEXING FEATURE

For furniture makers, the 12-point index is easy to adjust, accurate and locks the head firmly into position.

EXTENDABLE BED

Make your lathe as long as your project requires without having to permanently taking up workshop room! (additional accessory item purchase).

PRECISION MACHINING

FORWARD AND REVERSING SWITCH

Offers additional flexibility and allows you to achieve a superior finish.

GREAT SPEED RANGE

250 to 4,000RPM gives you one of the slowest low end speed in its class for large turnings and fast high end speed for small turnings.

QUALITY MATERIALS

Solid superior finishes cast iron throughout for durability and stability.
