Date Raised: 9 February 2017

Safe practices should always be employed to ensure the Health and Safety of yourself, employees and customers (if applicable) Refer to product manuals, exploded drawings and our website if further assistance is required, or contact us on [service@teknatool.com](mailto:service@teknatool.com)

Date Amended

The Upgrade Panel (SKU 55523) is to allow users to gain the benefits of fast, intuitive parameter adjustment capabilities on older DVR lathe models such as the XP and 2024. With the Upgrade Panel, user will be able to use the NOVA Wireless Remote II (SKU 55522) for hands free operation of the lathe.

Figure 1: Image of Upgrade Panel

This Upgrade panel is able to be integrated in models shown in the table below:

DVR XP			
Version	4.xx (Before August 2011)	6.xx	8.xx
	Not Compatible*	Compatible with braking feature	Fully compatible

\*Need to change main control board to a newer one which has firmware 6.xx or higher

DVR 2024		
Version	6.xx	8.xx
	Compatible without braking feature	Compatible

The benefits from the Upgrade Panel:

- Fast speed and parameter adjustment with the dial knob
- Remote enabled
- Up to 10 favourite speeds
- Increased working speed range up to 5000RPM
- USB Upgrade capabilities
- Braking features (Only in version 8.xx of both lathes)
